

## **FISCAL NOTE**

TO: Chief Clerk of the Senate  
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: March 13, 1995

SUBJECT: **SB 242 - HB 400**

This bill, if enacted, will require that all managed care organizations contracting with the state shall offer as a required medical service, blood glucose monitors and related testing strips.

The fiscal impact from enactment of this bill is estimated to be minimal. The contract between TennCare and the managed care organizations participating in TennCare already requires that this service be provided if it is medically necessary. It is assumed that it is not the intent of the bill to provide blood glucose monitors and testing strips unless it has been determined that they are medically necessary.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

James A. Davenport, Executive Director
